Newmarket Nov 28 2

Mrs Thurman

I enclose Specifications and Contract with alterations made by me and Signed if Thurge are Satisfactory you can Sign and Return to me it all my building Contracts the Second Story window by I don't think there is any need of any as there is no danger of fire and I think you would like the Front Room better if the Second Story was I foot lower I think a foot lower keeps low look better than higher as it is finished into the roof make it very high in the inside but this will make no difference to me have it as you like I should there be any Rocks in Cellar that need blasting I would expect pay for it as it is quite expensive work to do Yours Truly

Mrs Chapmans

Dear Sir

I am afraid I have contracted
so much work for this spring
I could not get your boat Hawardens
by the 15th of June if I can do so I shall
try to do it perhaps you can get
some one who would like to do the
job for you if you can it will make
no difference to me let them have
it if I do not do many jobs painting
therefore do not care to take any
contracts for painting but if you
wish will give estimate later
I shall have to take measures
for cushions third story of your
Cottage as I have lost the
Measurements that I did take

Yours Truly Ed Kenney
